ENGINEERS TAKE DAY AWAY FROM CONVENTION TO VISIT AT LOCK

Notables in Engineering Circles of Nation at Head of Party

SPEND HOUR IN INSPECTION

Four hundred strong a party of engineers attending the annual convention of the American Society of Civil Engineers in session at the William Penn hotel, Pittsburgh, with their wives took a sightseeing trip by special train up the Monongahela valley to Lock No. 4 today. At the lock they spent an hour watching the reconstruction work on the new inner lock now under way and observed the operation of the splendid new outer lock completed last summer. Then they boarded the steamer Sunshine for their return trip down the river to Pittsburgh, leaving at about 11:15.

In the party were some of the most noted engineers of the country. Clemens Herschel of New York city was at the head as president. The secretary of the society is Charles Warren Hunt of New York. Among the notables in the company were: Prof. Marx, dean of the school of engineering of Leland Stanford university, Prof. Swain, dean of the school of engineering of Harvard university and Admiral Endicott, late of the navy.

Charles E. Ashcraft, engineer in charge at Lock No. 4 showed the visitors around during their hour's visit here. They professed a deep interest in the engineering work at the lock.

On the trip down the river some of the large industries and many of the interesting scenes were pointed out to the engineers, including the immense steel mills, and the site of the new by-product coke plant at Clairton.

PRESBYTERIAN CANTATA DRAWS

AN APPRECIATIVE AUDIENCE

"A Capital Tea" Well Produced by Local Talent—Work of Performers is Excellent.

The performance of the cantata, "A Capital Tea" given at the First Presbyterian church Tuesday evening under the auspices of the Christian Endeavor society drew a large and appreciative audience. The work of the various participants was excellent throughout and that the performance in its entirety was thoroughly enjoyed was evidenced by the well merited applause of the audience. To refer to the efforts of each performer would necessitate too much space so suffice it to say that each did remarkably well. However, the work of Curtis Bliss as Uncle Sam, Miss Edith Woodhall as Mrs. Samuel, E. Aubrey Daniel as Sam Junior, W. C. Clark as the President; and Mrs. A. J. Whipple, Miss Beatrice Espey and Herbert Dreyer as Mammy Sue. Jule and Sambo respectively is deserving of more than passing mention. Prof. I. T. Daniel directed the production, with Miss Leila Orange as accompanist. During the performance instrumental selections were rendered by Miss Orange and George S. Might, violinist. The cantata will be repeated at eight o'clock this evening and a large attendance is anticipated.

ATTACHMENT SUIT AGAINST DILLON

Accused Bank Robber's Property Secured—Suspect to be Taken to Colorado

OFFICERS ARE EXPECTED SOON

The First National Bank of Houston, in an attachment suit filed Tuesday against James F. McDonald alias James L. Dillon alias James Windie, added another chapter to the robbery of the plaintiff bank on April 6, 1916, when that institution was looted of \$16,646.95. Thomas H. Talbot, now serving his term in the penitentiary, was convicted for his participation in that robbery and Dillon is now in the county jail charged with a part in the crime. He however is to be turned over to Colorado authorities, being an escaped life term from the penitentiary in that state.

The suit is brought by the bank at this time for the purpose of getting service on Dillon before he is taken from this state and with the purpose of attaching any property Dillon might have in his possession or assigned to someone else. The writ of attachment issued is directed to the sheriff to attach all the moneys, chattels, rights in action and other property of the defendant and to summon as garnishee all persons in whose hands or possession the same may be found and especially in the hands of Woodward M. Taylor, assistant district attorney.

The bank claims the defendant James F. Dillon as he is commonly known is indebted to it in the sum of \$14,985.95. This sum is the amount stolen from the bank, less the \$1,161, that has been recovered. The claim is based on the theory that the defendant was a confederate of Thomas H. Talbot in the robbing of the plaintiff bank.

It is averred the defendant and his confederate, Thomas H. Talbot with

Charlertown Men to Confer With Others From Various Other Towns

FURTHER PLANS FORMULATED

To meet committees from Belle Vernon, Monessen, Monongahela and Donora relative to the formation of a battalion for service in Mexico, Chairman R. H. Rush of Monday night's public meeting has appointed his committee consisting of David M. McCloskey, Dr. Edwin McKay, Dr. John McNaughton, Capt. J. K. Hein and William R. Gaut. Mr. McCloskey is chairman.

Arrangements are to be made at once for a conference of committees and plans perfected for the formation town to compose a battalion. This battalion, according to the idea of some is to be joined with a regiment of which Col. J. E. Barnett would be the head.

As soon as the committee formulate their plans another meeting will be called, probably in Charlertown, names of volunteers for service secured and other details arranged preparatory to starting actual training. It would take possibly four weeks to train a command for field activity and by that time the United States government would have its plans perfected so that it could place the local volunteer regiment in service at a definite point if an immediate need was demonstrated or arrange to hold the regiment in reserve as desired.

the intent to defraud, have assigned and disposed of the money taken from the plaintiff bank. Included in the sums alleged assigned for the purpose of defrauding the plaintiff bank is \$1,800 deposited in the name of Samuel Hampson in the First National Bank at Russellton and the sum of \$300 deposited in the name of Rowena L. Talbot in the First National Bank of New Kensington. The former sum was the consideration given by Talbot to Hampson, his brother-in-law at the time Talbot bought his farm near Russellton.

It is understood there is in the hands of Assistant District Attorney Woodward M. Taylor certain moneys and other personal effects of Dillon, turned over to the district attorney's office after Dillon was returned to this county from Montreal. This sum is about \$500, none of which is First National Bank of Houston notes.

The commonwealth by the district attorney is simply a stakeholder. It does not know to whom the money belongs and what disposition will be made of it will have to be determined by this action brought by the bank. Dillon has no counsel so far, and whether or not he will make any defense is not known. It is expected Colorado officers will be here within a day or two to return him to the penitentiary of that state.

In his commencement sermon to the graduating class of the University of Chicago the other day, the Rev. Charles A. Rickman asserted that the only way to be interesting now is to read the Ten Commandments. "If this generalization is founded in fact, a choice between the alternatives offered to the graduates by the preacher is difficult," says the New York Sun.

The open season for bombinate sermons is in progress and clergymen in all parts of the country are under the temptation to pour into the ears of graduating students striking words that will be long remembered. The danger is well illustrated by the face of the Vassar preacher. An epigram is of value only when it cannot be misunderstood when removed from its context.

Between the dullness and smartness the baccalaureate preacher can find a golden mean if nature has not been unkind to him. His motto should be safety first and sensationalism never. The task devolving on him who preaches to a graduating class offers a splendid opportunity for making up on receptive minds a lasting remark. But he who delivers a baccalaureate sermon should see to it, as he values his reputation for good sense, that the epigrams he employs do not need explanation to eliminate their objectionable bearings.

County Detective William Mc-
Cleary, accompanied by special offi-
cers, visited Hendersonville, the coal
town at the plant of the Henderson
Coal and Coke company, near Hills
station Tuesday and raided a number
of places where liquor was being sold,
returning to Washington with four
prisoners against whom information
was made for violation of the liquor
laws.

These men were James Mahoney, Patsy Lagori, Joe Marks and Samuel Ribla. They were each held in the sum of \$1000 mail for hearing before Justice J. M. Ralston on Saturday morning and being unable to give bond were remanded to jail.

The arrest of these men is considered important, since it is alleged they have been flagrantly violating the law for some time. It was only by careful watching and ingenuity on the part of Detective McCleary that they were caught.

Hendersonsville is one of the new towns that have sprung up in Washington county with the beginning of larger coal operations.

Whalen of Duquesne University or Corliss of the University of Pittsburgh will pitch and Lynch from Duquesne University will do the catching for the visitors. Gray or Lafferty will pitch for the Pittsburgh Steel Products team and Courtney or Guler will catch.

Another announcement is being made, that of a game on the Charlerton grounds tomorrow evening at 5:45 o'clock, with the Superior A. C.'s of Monessen. The Superiors are strong and are looking to take over the Products team.

Mr. Weaver had mingled with his friends and seemed to be in the best of health. He retired at 10 o'clock Sunday night and nothing more was heard of him until his housekeeper was awakened by a noise from his room. As she entered his room life was passing away. Heart trouble is given as the cause of death. Mr. Weaver had been employed as a trackman in the Denbeaumines for the past seven months, coming there from Mt. Braddock. He acquired a large acquaintance in a short time and when the baseball season opened he was elected manager of the team.

The Delight of Children

The self-developed, inner-flavour of New Post Toasties bear a unique attraction for the kiddies—they even like them dry from the package for their lunches. A box of Toasties provides "eats" that will delight the children.

New Post Toasties are usually served with cream and sugar, in which form the flavour is more pronounced and the flakes more delicious. These New Toasties do not "chaff" or crumble in the package and they don't mush down in cream—both common defects of old-fashioned "corn flakes."

Then, too, notice the tiny bubbles on the flakes, produced by the quick, intense heat of a new patented process of making which imparts delightful crispness and a substantial body to the flakes.

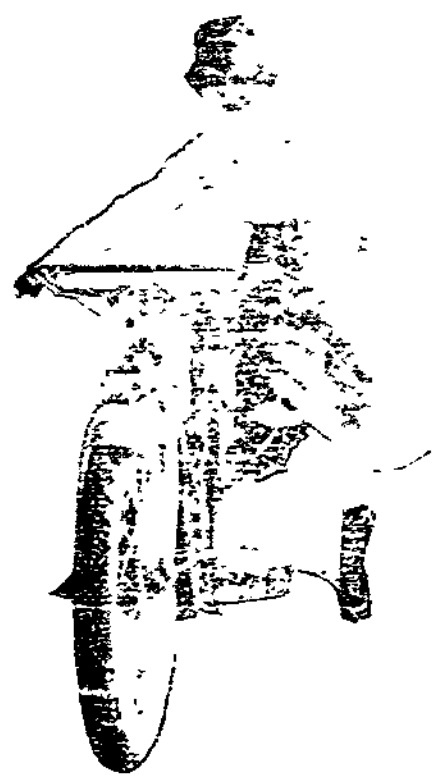

New Post Toasties are a vast improvement over any old-style "corn flakes".

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of \$100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employees, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employees for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion, and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railroads be disposed of by one or the other of the following methods:

1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railways, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or
2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employees are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence.

The rates the railroads may charge the public for transportation are now largely fixed by this Government board.

Out of every dollar received by the railroads from the public nearly one-half is paid

directly to the employees as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.

The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employees, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employees, now highly paid and constituting only one-fifth of all the employees, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.
